Tournament and Hole Sponsorships still available | Register before April 5th to save 10%

Water For People helps people in developing countries improve their quality of life by supporting the development of locally sustainable drinking water resources, sanitation facilities and health and hygiene education programs.

Around the world, 884 million people do not have access to safe drinking water and 2.5 billion are without adequate sanitation facilities. Every day, nearly 6,000 people who share our planet die from water-related illnesses, and the vast majority are children.

Our vision is a world where all people have access to safe drinking water and sanitation; a world where no one suffers or dies from a water or sanitation-related disease.
